Install the latest PowerShell for new features and improvements! https://aka.ms/PSWindows

PS D:\IBM project> iex (New-Object Net.WebClient).DownloadString('https://clis.cloud.ibm.com/install/powershell')
Current platform is Win64. Downloading corresponding IBM Cloud CLI...
Download complete. Executing installer...
Install complete. Please restart to make the modification effective.
PS D:\IBM project> |
```

DOCKER CLI INSTALLATION:

CREATE ACCOUNT IN SENDGRID:

The screenshot shows the Twilio SendGrid dashboard for a user named Supraja Devanathi. The left sidebar contains navigation links: Dashboard, Email API, Marketing, Design Library, Stats, Activity, and Suppressions. The main content area features a welcome message, a blue banner for sending emails with Twilio SendGrid, and a section titled 'Create a sender identity'. This section explains the need for a sender identity and provides two options: 'Create a Single Sender' (a blue button) and 'Authenticate a domain instead' (a link). An example email header is shown, highlighting the 'From' field with a blue arrow pointing to the text '<jane.doe@your_business.com>'. The example email is from 'Your Business' to 'me'.

Welcome, Supraja!

To get up and running quickly, please follow the steps outlined below.

Send your first emails with Twilio SendGrid

Create a sender identity ▾

Before sending email, you'll need to create a sender identity. There are [two ways](#) to do this, but we recommend creating a Single Sender to get set up quickly and test your email integration.

Your sender identity is the "from" email address your recipients will see in their inbox. [Learn more](#) about this.

Create a Single Sender [Authenticate a domain instead](#)

Your Business to me <jane.doe@your_business.com>
